

Press release

RTI Announces Virtual ConnexCon 2020 – The Global DDS Users Conference That Unites Experts Developing Autonomous Systems

Virtual ConnexCon 2020 to Showcase Real-World Customer Use Cases
Featuring GE Healthcare, Dreamscape, Rivian, Kratos Defense and More

Event Details:

- **What:** Virtual ConnexCon Conference 2020: The Age of Autonomy
- **When:**
 - US/Americas: October 26-27 2020
 - EMEA/APAC: October 28-29, 2020
- **Where:** Virtual – Agenda & Registration: <https://bit.ly/2F3raEz>

SUNNYVALE (USA)/London, October 13, 2020 – Real-Time Innovations (RTI), the largest software framework provider for smart machines and real-world systems, today announced its first Virtual ConnexCon 2020 to be held on October 26 – 27 for the US and Americas regions, and October 28 – 29 for the EMEA and APAC regions. ConnexCon 2020 will unite engineers and developers on a global scale with RTI customers, partners, executives and technical experts. The two-day virtual event will feature hands-on workshops, keynotes by industry experts, customers discussing implementations of the Data Distribution Service™ (DDS) standard and interactive demos.

ConnexCon 2020 will explore the capabilities of tomorrow's smart machines and autonomous systems. In the next 10 years, cars will safely drive themselves, energy systems will better utilize legacy devices and renewables, and new levels of intelligence will enhance hospital equipment. At ConnexCon 2020, attendees will see first-hand how RTI ConnexCon® DDS is accelerating this new age of autonomy and transforming the fundamental infrastructure of our planet.

Featured ConnexCon 2020 speakers include:

- October 26-27, 2020 (US/Americas):

- Stuart Kozlick, CEO of Puzzle Medical Devices and RTI Advisory Board Member
- Kiran Bharwani, VP of Autonomy, Rivian Automotive
- Matthew Grubis, Chief Engineer of Monitoring Solutions, GE Healthcare
- Craig Clark, CTO, Kratos Defense
- October 28-29, 2020 (EMEA/APAC):
 - Sylvain Chague, Co-Founder and CTO, Dreamscape Immersive
 - KT Neumann, Founder and Investor of KTN GmbH; RTI Advisory Board Member
 - Stefan Sandberg, Product Owner Simulation, Veoneer Vision

RTI executives and technical experts will also present on timely topics including: the future of autonomy, a technical deep dive into scalability for Industrial systems, Inside DDS – an introduction to Connex DDS, security for mission-critical defense systems, and data centricity in electric and autonomous vehicles.

“The age of autonomy is upon us. RTI is working with customers to build intelligent systems that make our world safer, cleaner and more efficient. From eliminating car accidents to improving patient safety in hospitals, we have a front-row seat to the greatest technical revolution of our time,” said Stan Schneider, CEO of RTI. “Our virtual ConnexCon will bring RTI customers, partners, technical experts and influencers together from across the globe for the first time. We look forward to sharing the latest technical insights as we develop the framework for the future.”

ConnexCon 2020 attendees can expect a dynamic experience. In addition to virtual presentations, users will have the ability to virtually interact with speakers, RTI experts and other attendees through live polls, session Q&As, surveys, demos, discussion boards and virtual meeting rooms.

About RTI (www.rti.com):

Real-Time Innovations (RTI) is the largest software framework provider for smart machines and real-world systems. The company's RTI Connex[®] product enables intelligent architecture by sharing information in real time, making large applications work together as one.

With over 1,500 deployments, RTI software runs the largest power plants in North America, connects perception to control in vehicles, coordinates combat management on US Navy ships, drives a new generation of medical robotics, controls hyperloop and flying cars, and provides 24/7 medical intelligence for hospital patients and emergency victims.

RTI is the best in the world at connecting intelligent, distributed systems.

These systems improve medical care, make our roads safer, improve energy use, and protect our freedom.

RTI is the leading vendor of products compliant with the Object Management Group[®] (OMG) Data Distribution Service[™] (DDS) standard. RTI is privately held and headquartered in Sunnyvale, California with regional headquarters in Spain and Singapore.

Download a free 30-day trial of the latest, fully-functional Connex DDS software today: <https://www.rti.com/downloads>.
